

First Aid and Fire Safety Training

Service catalogue

The Problem:

Untrained employees;
most employees do not know
what to do during an emergency

Non compliance & readiness gaps:
lack of training leads to
non compliance and
audit observations

Fake certification ,low quality
substandard training puts lives
at risk and adds no real value

The Solution:

Certified First Aid, CPR, BLS & Emergency Response Training
delivered through practical, hands-on sessions and simulations.

Compliance-focused training programs
aligned with applicable workplace safety requirements, along with assessments and documentation to improve audit readiness.

Authentic, competency-based certification
backed by qualified trainers, practical assessments, verifiable records and standardized training protocols.

to build healthier workplaces.

Our Clients, Our Biggest Advocates

We take pride in the trust our clients place in us for First Aid & Fire Safety Training.

What Our Clients Say

“

The training was highly interactive and practical. Our employees gained the confidence to respond effectively in emergencies. The instructors were knowledgeable and made the sessions engaging.

★★★★★

HSE Manager
Manufacturing Industry

“

Excellent training with hands-on practice in first aid, CPR, and fire extinguisher use. The mock drills were very useful and relevant to our workplace. Well organized and impactful.

★★★★★

EHS Officer
Automotive Industry

“

A very well-structured program that covered all key aspects of first aid and fire safety. Our team now feels more prepared and aware of how to handle real-life situations.

★★★★★

HR Executive
Logistics Industry

THANK YOU!

Together, we create
healthier workplaces.
